**Welcome to Learning VCarve Pro software offered by the  
SCW Metal Club!**

Thank you for your request to be included in the VCarve Pro email updates. We have received an overwhelming response from club members about this software program and appreciate your interest to learn more about it.

In order to bring you up to date on what the team has provided about VCarve Pro so far, you will receive separate emails covering the following topics. Please note that VCarve Pro emails will be issued from the '[education@scwmetalclub.com](mailto:education@scwmetalclub.com)' email address, so make sure this is coming to your email inbox and not a spam folder, etc.

1. Introduction Letter: What You Need to Know to Get Started with VCarve Pro (attached)
2. Email #1: Instructions to Login to VCarve Pro (several online tutorials)
3. Email #2: Cleaning up & Converting a .dxf File (online tutorials)
4. Email #3: Eliminating Unnecessary Points from Vectors in VCarve Pro (online tutorial)
5. Email #4: Plasma Cam Rumors Addressed
6. Email #5: VCarve Pro Quick Reference Guides: Command Icons; Keyboard Short Cuts
7. Email #6: Setting up Toolpaths & Tips for Cleaning up Metal Art Files
8. Email #7: VCarve Pro Survey – Summary of Responses & Comments
9. Email #8: Vcarve & Laguna Certifications / 2020 Summer Procedures
10. VCarve / Laguna Re-opening 2020 Summer Update
11. Email #9: Vcarve Pro Version 10.5 Update

Joe Faraone (Club Treasurer) is available to assist you and answer questions as you move forward in this learning process. Questions can be directed to them at '[education@scwmetalclub.com](mailto:education@scwmetalclub.com)' and they will contact you directly as requested.

We hope you enjoy learning more about this powerful VCarve Pro software package. Let us know if you have any feedback or suggestions along the way.

Stay healthy and keep learning! VCarve Pro Team  
SCW Metal Club.
